A LOOK BACK AT MY DESIGN & MARKETING CAREER SO FAR
2007-2019

By Amanda Sears

I have been a designer and marketing manager in various capacities for various industries for the last 12 years and have worked on some really fun projects and created some great stuff over that time.

It is easy to forget all of the things you have done, especially over 12 years so I wanted to compile a 'lookbook' or rather a 'look back book' of my work pre 2020 as we head into a new decade...

As I created this booklet it brought back many fond memories and some not so fond memories. I found artwork and designs that I had completely forgotten I had done and some that I wish has stayed hidden HAHA!

The best part about looking at the progression of my design abilities and marketing skills over a 12 year period is that some fundamentals I learned in the beginning still ring true but many other things I have learned and adapted to over the years of working hands on within the design and marketing industry.

I have had the pleasure of working for big businesses and small and value every experience and skill gained through it.

A few of my major highlights over the years:

- ★ Attending a Ford NZ marketing workshop in Auckland with JWT and Google while I was the marketing manager for MS Motors
- ★ Winning my artwork on the cover of GSM magazine #4 (a NZ and Australian print magazine in 2014)
- ★ Getting to try out various techniques and ideas with my wonderful clients and coming up with solutions for challenging design and marketing problems - like inventing a new game!
- ★ Having my print design work published in the In Print section of GSM Magazine a few times over the past years
- ★ Not waiting around for others to make my dreams happen, but just getting out there and doing it myself - like my 3 self-published printed books and 2 free digital magazines
- ★ The biggest highlight is being able to learn and grow with the terrain IN the terrain as it changes and evolves; this has given me the ability to develop a specific set of skills that I now utilise for my own work and many projects

I am so proud of my achievements and want to share some of them with you throughout this 'lookbook' - I hope you enjoy.

What a journey it has been so far and what a journey it will continue to be for many years to come!

HIT&HED

HI! I'M AMANDA! HERE IS A LITTLE BIT ABOUT ME...

I love helping people, experiencing life fully and being creative. I'm a high performance person and multidisciplinary entrepreneur with never ending ideas, passions and pursuits. My abilities to learn, inspire, prioritise, adapt and solve problems are assets I have developed throughout the many wonderful and wild experiences in my life that I now use to help people and businesses perform at their best while staying authentic, honest and real.

I have worked in the creative industry for over 12 years in various aspects such as, graphic designer, copy centre operator, marketing manager, creative manager, sales and advertising consultant and more... Including for large and small businesses, from vehicles to cider festivals. This wide range of experience makes me skilled in multiple areas in the design and marketing field and means I am very adaptable to environments and different industries. I started out playing with photoshop in high school but it was in 2007 at the Bay Beacon newspaper that really set me on my creative path...

I love just doing whatever I feel like... so I've done a fair bit of fun stuff in 33 years... here is just some of it:

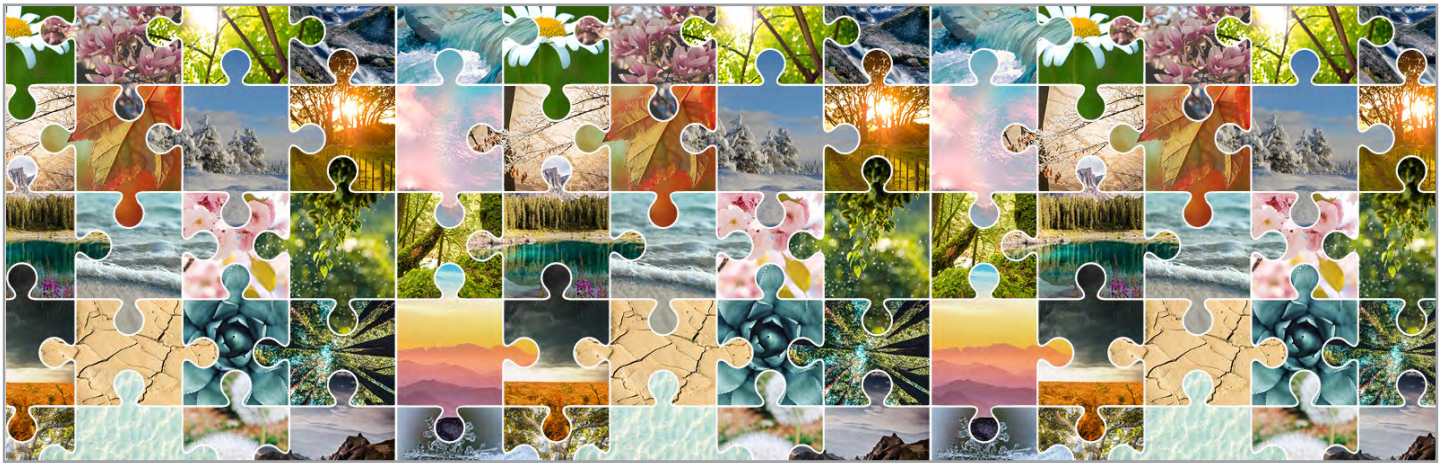
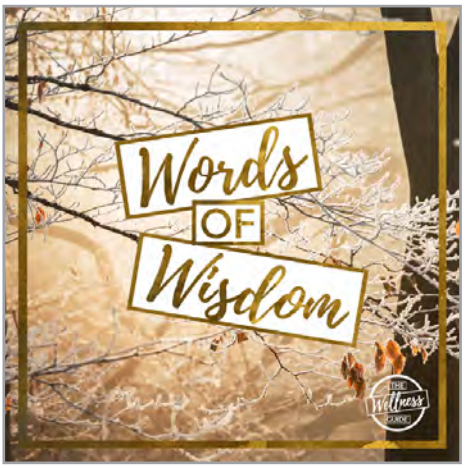
Your journey is very much your own and often it is too overwhelming getting opinions from the masses. Photography and art in general is a very personal subject and it takes a long time to develop your own personal style. Find what makes you happy and do more of that!

Rochelle Marshall

I've always been passionate about helping others and shining the light on people that I feel do amazing work, including the many artists and creatives in the Nelson Tasman region. So in early 2017 I woke up one day with the idea of my first free eMagazine and got to work making it happen. I interviewed and photographed many artists and published 6 editions.



THE WELLNESS GUIDE



This is where I share my personal health journey and tips and tricks that have worked for me to inspire wellness in others. I get to play with some fun gold styling and inspirational quote designs with this project. I get lots of joy from sharing my story here and in blog posts. Keep up with my social posts on the website: www.thewellnessguide.nz

FOR THE LOVE OF STREET ART NZ

In 2014 I published my first book on local street. It was spiral bound with a free map + 10 copies had a laser cut stencil cover. The next book was BIGGER and perfect bound in A5 and A6 (pocket book) + a calender. In 2018 I became an official Street Art Hunter for Street Art Cities and load murals onto their global map. My website has photos from NZ and Australia.

DEFINITELY KEEN TO TAKE IT THE NEXT LEVEL"

- J Muzacz

I've been photographing and documenting street art in the Nelson Tasman region for 5 years and in 2019 I tried to launch our first official street art festival in Nelson with the help of my friend J in Texas. Here is some of the design I did for it... unfortunately it did not go ahead.

SPOTLIGHT: SHAZZA'S CRAFTS

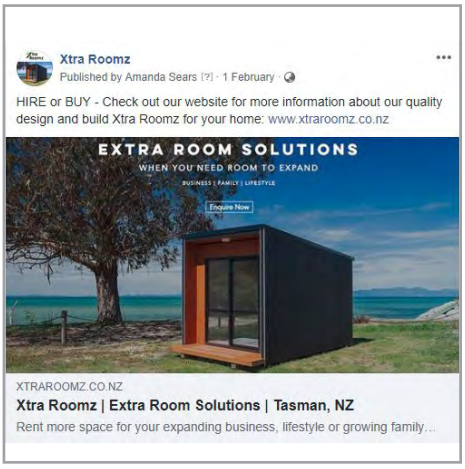
Sharron is a Stampin' Up! independent demonstrator and in 2018 wanted to create a more professional appearance for her business. We created a fun logo and social profile picture + stickers, button badges, name badges, stationery items, flyers and letterhead.

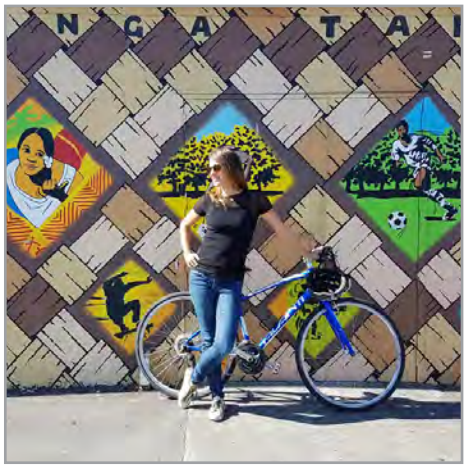
After a thorough brand audit and review with detailed suggestions she got some professional photos taken and we made some updates. We updated her social media with the new images and wrote up a nice bio. I also offered some Canva training so she could make her own social images and helped to set up her blog page + provided training and demonstration of taking photos with natural lighting and her smartphone. This was a super fun project to work on and Sharron was super fun to work with! We got to try out a lot of fun things!

Xtra Roomz

SPOTLIGHT: XTRA ROOMZ

The full brand launch of Xtra Roomz in 2018 - logo design, copywriting, corporate brochure, rack cards, photoshoot (direction), laser cut aluminium signs, name badges, branded apparel, business cards, website design and build, social media management and advertising.





SPOTLIGHT: EASY STREET CYCLING, NZ

In early 2019 Clare decided to take the leap and start her own business teaching people how to cycle safely and to look after their bikes. We had a short time-frame to work in but still delivered a logo, branding elements, photoshoot, website, letterhead and business cards.

About Easy Street

Easy Street Cycling NZ was launched in March 2019 in Nelson, after local cycle instructor Clare Scott, saw a gap in the community for support and education for safe and confident commuter cycling - *after witnessing MANY near misses and dangerous cycling behaviour daily in the region.*

Hi! I'm Clare Scott. A fully qualified road cycling instructor, mother to 3 kids and passionate advocate about increasing active transport and commuter cycling around the Nelson region. I am also a qualified personal trainer and wellness consultant and can work with clients to improve their general fitness and wellbeing to make cycling an easier and more realistic option.

SPOTLIGHT: BE BRILLIANT

In 2018 Charley came to me to design a website that incorporated her new business Be Brilliant with her current business Charley Chop Chop. Her Be Brilliant logo had to be redesigned after a small issue with the previous design, but we got it all sorted. In the end we worked together to create a beautiful new website that presented both of her brands together which included images, graphic design, strategy and copywriting + new business cards.

As the Marketing Manager from 2015-2017 at MS Motors *(MS Ford, Nelson Kia, Can Am Nelson, MS Auto Tints and Richmond Service Lane)* I got to do a huge range of work such as: advertising, photography, strategy, budgeting, PR, websites, signage, graphic design and promotional aspects + event coordination and promotion for some exciting events like the Ford Roadshow, Lisa O'Neill Fashion Show, Blue September Fun Run and the 2016 Ford Mustang private launch party! I even got to travel to Auckland for a Ford Marketing workshop! It was a great experience and set me up with many of the skills I have now through the diversity of the role.

**Images all by MS Motors (taken by me while there, except the one with me in it)*

MY TIME AT MS MOTORS

From 2016-2018 I worked for Nelson Venues as their Marketing Manager. We got to work on some really fun projects like The NZ Cider Festival, The All Blacks 2018 and on general Nelson Venues marketing and development. The Cider Festival was my favourite! I did all the creative direction, design, social media, PR and marketing for the sold out 2017 event and the prep work for the 2018 event. I got to work with people all over NZ and the world and create some great promos AND a new game called Apple Sack. I did social media photography for the event, wrote the press releases (and some articles) and organised The Cider Riderz to come down from Auckland to Nelson! + ALL the advertising and design.

MY TIME AT NELSON VENUES

Thanks to the The Nelson Mail and Carly Gooch for this sweet write up about my street art hunting adventures! Thanks to Virginia for a fun photoshoot! And thanks to Tim Marschang for getting me involved with Street Art Cities and getting Nelson and Tasman on the global map!

Big thanks to @Jacob Yikes for the sweet backdrop!

ART BY ADRIENNE MATTHEWS

The Versatile Artist

Amanda Sears has made art as far back as she can remember, from crude dinosaur drawings in primary school to more delicate fashion illustrations in her early teens.

After trying her hand at a variety of career opportunities from automotive engineering to vet nursing, Amanda took a job in 2007 with a local newspaper in Whitianga. Her role included graphic design which she soon excelled at. A brief stint at the Design and Arts College in Christchurch followed but the 2010 earthquake intervened and sent her packing to Dunedin. Fortunately she had acquired sufficient multifarious skill to create her own art and illustrations. Her art practice is called 'Come to Life Design', which has been a springboard for her design career.

"Someone told me once to just pick something and stick with it, but I'm proof that you can pick everything"

- Amanda Sears

2014 has been an extremely busy year for Amanda. As well as studying art at NMIT, working as a graphic designer, and participating in local art events and exhibitions, she and husband John founded a new design studio called Studio S to utilize their combined artistic talents. Their first big project to reach fruition is a book titled Nelson City Street Art. For four months, with funding from NZ Creative Communities and support from Uniquely Nelson, Nelson City Council and Arts Council Nelson, Amanda researched and photographed the murals and street art that grace our city.

The result is a superb compilation that does justice to the versatility and skill of artists in this region. It has been a labour of love and exploration that Amanda is passionate about and she is rightly proud of her achievements.

KIND WORDS OVER THE YEARS

"Your smile is your logo, your personality is your business card, how you leave others feeling after having an experience with you becomes your trademark." Studio S out of New Zealand was everything I could have hoped for in a graphic designer and way more than I could have ever imagined. I met then through a contest I hosted in 99designs. It was amazingly obvious from Studio S's first submission that they had read everything in detail that was requested. As a business owner with limited time, this was very appreciated. It was as though we had a previous working relationship and weren't in completely different time zones with the ease in which we communicated. As communication is the key to success in a 99 design contest, Studio S placed first! Not only did they include various files for the logo, they also submitted a "Handover Checklist" detailing the colours that were used, how the different files were to be used, and where to ensure we used the logo. This went from beyond the skills of professional graphic designer to the skills of a true branding specialist.

Thank you Studio S for going above and beyond in a timely fashion. I'm so excited for the logo you designed to grace our websites, book covers, podcast album art and social media platforms. Studio S was so fantastical that they not only won the contest on 99Designs but also we continued working together to create a secondary logo and the icons within both logo's. I chose to continue to work with Studio S as they communicated with ease, were receptive to constructive critiques of their work, had obvious passion for their craft, and worked tirelessly to ensure we were ecstatic with the final result. Studio S, thank you for creating our smile! And with your trademark evoking the feelings it does, we know your company will be around for a long time!"

"I've been working with Amanda on my Business logo, branding and visual marketing and am delighted with the results. Amanda is very proactive and on-point, she is direct, authentic, down to earth and explains things clearly and helpfully. She works very intuitively and her designs and feels into what's required, which means she gets results and the outcomes were fully aligned with my brand essence and who I am. Amanda's work was of an impeccably high standard, comprehensive, appealing, fresh and original. She is insightful and was also patient in explaining to me when I couldn't always see what was required or what would be of most benefit going forwards. I love my Rose gold colour palette! Thank you Amanda. I'm so grateful, Rose."

"I knew immediately upon meeting Amanda that she was going to be the right person for my rebrand. Amanda is very relatable and listens to you. A LOT of research went into Amanda's design for my business and every step was communicated effectively. So much so that Amanda's initial design concept was absolutely PERFECT. Her business card design process was also flawless and the resulting cards are absolutely everything I wanted. I am looking forward to developing more with Studio S in future. I'm one happy person!"

"Amanda cares about your business! I had a one on one consultation with her today and was completely blown away with the value she provided. She is a great listener and responds to what your needs are with easy and practical suggestions and steps to follow. She even made an online tutorial to help me put into practice the suggestions she had for me in the coming weeks. Her relaxed style and intuitive approach made the session a pleasure.... I left a lot of my overwhelm at the door on leaving her lovely office space. Highly recommended."

"Amanda has worked for Nelson Venues as an employee and contractor for the last 1.5 years and has proven to be a valuable asset with her extensive and broad knowledge in a range of design and marketing modalities coupled with excellent time management and creative thinking. During her time with us Amanda moved from creative, admin and marketing duties into more of an established marketing and creative management position, where her specialist skills were put to good use on various large events such as The NZ Cider Festival, Experience Rugby History CBD Fan Trail and Super Club 2018, and also within Nelson Venues itself.

Amanda has demonstrated consistent quality and experience across the board and managed all of the marketing and creative aspects for the sold out 2017 NZ Cider Festival and the initial planning and promotions for the 2018 NZ Cider Festival. In her role she either created or managed the graphic design and illustration work as well as the web design. She also implemented all aspects of the marketing, including strategy, managing the designated budget, media liason, advertising, copywriting and social media marketing.

Amanda has great communication skills and has liased on behalf of Nelson Venues with a wide range of national and international suppliers, businesses and media. Her knowledge about legalities and professional practice and emphasis on authentic values has helped to build strong relationships and implemented successful marketing campaigns.

With such varied skills, experience and technical knowledge such as hers,
Amanda would be a valuable asset to any business."

"From our initial meeting, I knew Amanda was the right person for this project, my first logo, to lift my business to another level with the right visual that not only looked perfect but also felt perfect. With a beautiful combination of her design skills, intuitive guidance, and ability to transfer my thoughts and ideas to the screen, she created a superb outcome. The process of creating the logo was thoroughly enjoyable and Amanda was open, receptive and just as passionate as I was to make this happen! Thank you Amanda, the logo is exactly as I wished it to be and I can't wait to get it printed on to everything now!!"
