A LITTLE BIT ABOUT ME

Hi I'm Amanda Sears! I'm an artist (among other things) based in Nelson, New Zealand. I've been creative my whole life this part really evolved in 2013 after being inspired by a beautiful cover illustration on the first edition of Hitched Magazine when I was planning my wedding. This illustration struck a chord within the heart of me and using the skills I had developed through various outlets and experiences over the years and combined with my love of Anime and comic art my current style was born.

I hand draw most of my images, firstly in pencil, then in pigment liner and then depth is added with more pigment liner before I scan the drawings into my computer. Once scanned I tidy up the lines and smooth them out using my design programs.

When the lines are smoothed the really fun part begins... colouring the line art!

Colouring can often take longer than drawing as I LOVE colour and there are infinite possibilities and combinations when digitally colouring. To keep it a little bit simple I stick with a base 'skin tone/pigment' and then focus on colouring the other elements (with a special emphasis on the hair), often each artwork is finished in multiple colour options because I just love them all and struggle to pick just one expression!

I hope you find pleasure perusing this catalogue and enjoy my art on your wall.

FRAMING INFORMATION

All art prints are available unframed or in a 'classic' frame available in white, black and 'raw'.

All frames are made in New Zealand from wood and have a smooth matte finish.

A frame moulding adds a little more width which increases the overall size of the work.

'Classic' Moulding dimensions:

30mm wide x 20mm high

eg. Framed A4 = 260mm x 345mm

A 'simple' standard framing method is used which offers a contemporary and clean look. Prints are placed straight in against the glass, taped and strung ready to hang. (see above).

SELECTED BORDER OPTIONS

Some art prints have a full white frame or are based in the middle of a white page while other illustrations go right to the edge or rise up from the bottom.

The illustrations that go right to the edge are also available with a white border on request. Please see individual listing for border variations option.

IMPORTANT NOTES

Actual artwork/paper/frame colours may vary slightly in real life to that viewed on your screen due to individual monitor settings etc.

All art print mockups (depictions) are indicative only of placing and may sit slightly different once printed or framed.

Framed prints cannot be shipped outside of New Zealand.

I use NZ art specialist business EndemicWorld® for all printing, framing and shipping.
